JA Solar 560W photovoltaic panel solution

Overview

What is a JA Solar 560w solar panel?

The JA Solar 560W Solar Panel (JAM72S30-560/GR) is a high-performance solar solution known for its exceptional efficiency and advanced technology. With its impressive power output and durability, this panel offers long-term cost savings and reduced carbon footprint.

What is a JA Solar 560w MBB half-cell module -jam72s30-560/gr?

The JA Solar 560W MBB Half-Cell Module -JAM72S30-560/GR is the perfect choice for your solar energy needs. This module is assembled with MBB PERC cells, providing higher power output, improved temperature-dependent performance, reduced shading effect on energy generation, lower risk of hot spot, and enhanced tolerance for mechanical loading.

How to install JA Solar modules?

JA solar recommends installing the modules with a tilt angle of at least 10 degrees, making it easier for dust to be washed off by rain. Ensure the installation method and supporting system of modules is strong enough to make the modules can withstand all the load conditions.

What is included in the JA Solar installation manual?

Thank you for choosing JA SOLAR modules! This Installation Manual contains essential information for electrical and mechanical installation that you must know before handling, installing JA Solar Modules. This Manual also contains safety information you need to be familiar with.

Do JA Solar modules corrode?

JA Solar modules have passed the IEC 61701 salt-mist, but galvanic corrosion can occur between the aluminum frame of the modules and mounting or grounding hardware if such hardware is comprised of dissimilar metals.

How to unpack JA Solar modules?

Store pallets in a ventilated, rain-proof and dry location until the modules are ready to be unpacked. Please unpack the package of JA Solar modules according to “JA Solar Modules Unpacking Instruction”. Do not lift the modules by grasping the module’s junction box or electrical leads in any condition.
