

European Solar and Energy Storage Solutions

JA Solar Photovoltaic Panel Company

Overview

Where is JA Solar based?

PHOENIX, AZ (January 10, 2023) — JA Solar, a global solar cell and module manufacturing leader, announced today it has leased space for its first manufacturing facility in the U.S. in Phoenix, Arizona. The new facility will produce high-performance photovoltaic (PV) products, and is expected to be operational by Q4 2023, creating over 600 new jobs.

What types of PV power plants does JA Solar offer?

At JA Solar we specialize in multi-form photovoltaic (PV) power plants, including conventional centralized PV power plants, Agri Voltaics , Floating Solar PV power plants, and and other forms.

What is JA Solar Technology?

As a photovoltaic power generation solution platform, JA Solar Technology Co., Ltd. continues to advance its "One Body, Two Wings" strategy.

Where can JA Solar products be used?

JA Solar products are available in 135 countries and regions and are used extensively in ground-mounted power plants, commercial & industrial rooftop PV systems and residential rooftop PV systems.

Will JA Solar manufacture solar panels in Phoenix?

“We are grateful JA Solar will manufacture its high-efficiency solar panels in Phoenix, enhancing Arizona’s renewable energy industry.” Once operational, JA Solar’s Phoenix facility will be the largest manufacturing site of solar/PV products in Arizona with a capacity of 2 gigawatts.

Will JA Solar open a US factory?

China’s JA Solar, the world’s fourth-largest solar panel maker by capacity, is

going to open its first factory in the US – a major win for the Biden administration, which has created a domestic clean energy manufacturing growth boom with laws passed late last year.
