Overview

TOKYO -- American power provider Spark Energy is poised to enter the Japanese market when the nation's retail electricity market fully opens up next April. What is Japan's Strategic Energy Plan?

The strategic energy plan presents the nation's mid- to long-term directions for energy policy, and is revised every three years. The latest revision will indicate for the first time Japan's targets for its breakdown of energy sources in fiscal 2040, aiming for 40%-50% renewable energy, 20% nuclear power and 30%-40% thermal power.

What is Japan's 6th Strategic Energy Plan?

On October 22, 2021, the Government of Japan published the 6th Strategic Energy Plan to show the direction of Japan's energy policy. It explains our climate-related efforts to overcome challenges toward achieving carbon neutrality by 2050. It also covers policies to solve various issues in relation to the energy supply/demand structure of Japan.

Does Japan depend on fossil fuels?

outside Japan. Following the Great East Japan Earthquake, the degree of dependence on fossil fuels increased to 84.8% in FY il fuels 84.8% Source: confirmed values of FY 2019, derived from "Comprehensive energy statistics of Japan", Agency for Natural Resources and Energy* The sum of the values shown may not be 100% in some cases due to roun
