Jersey solar pv projects

Overview

How many kWh will Jersey's solar array generate?

The 1,311 square metres, 255kWp array is expected to generate over 240,000 units a year - enough to power 33 Jersey homes using an average 7,300 units (kWhs) a year. It's the third solar array to feed directly on to the grid.

What is the New Jersey community solar energy pilot program?

This tool was developed by the New Jersey Department of Environmental Protection's Bureau of Climate Change & Clean Energy to support and inform the siting of solar projects under the New Jersey Board of Public Utilities' Community Solar Energy Pilot Program.

Could St Clement be Jersey's first ground-mounted solar farm?

Land south of Rue du Moulin à Vent, St Clement, could be the site for Jersey's first ground-mounted solar farm if plans by Jersey Electricity get the go-ahead.

Will Je bring roof-based solar on the grid?

JE has so far focused on bringing roof-based solar on to the grid with four installations on its Power Station, Queen's Road Solar Hub, Jersey Dairy and Woodside Farm, currently generating around one million kWh (units) a year. A planned fifth array on the roof of the.

Why should you choose SunWorks Solar?

SunWorks Solar is Jersey's only dedicated PV provider, offering Solar PV to both commercial and residential properties. With more homes in Jersey powered by solar through SunWorks than any other firm, you can trust us for great service and the best suited PV system.

What is New Jersey natural gas supplier data?

The data was created to identify the territories served by New Jersey Natural Gas Suppliers. The data can be used by suppliers, consumers, government entities, etc. to determine Natural Gas Supplier service areas throughout the State of New Jersey.

Jersey solar pv projects

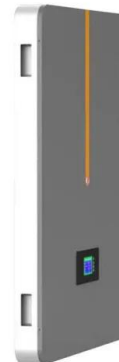

Mount Olive Landfill Solar , CS Energy

The Mount Olive project is the largest solar project ever developed on a capped landfill in the U.S. Consisting of approximately 57,000 ground-mounted solar panels built with union labor, this 25.6 megawatt (MW) array helped transform a U.S. EPA Superfund site into clean energy capable of powering more than 4,000 homes annually.

Jersey Electricity announce proposals for solar farm

There is a desire for Jersey to be more energy independent and we believe that ground-mounted solar PV can now play an increasing and valuable role as part of Jersey's energy mix and sovereignty.' The Moulin à Vent Solar Farm project is a 12-acre site that already benefits from established natural screening, ensuring low visual impact.

Sun Works

We provide Solar PV to commercial and residential properties. SunWorks have powered more homes with solar around Jersey than any other firm. We are Jersey's only dedicated PV provider so you can be sure of great service and the best suited PV system. 01534 498822 info@sunworks.je.

Dual-Use Solar Energy Program: 2023 Update

Solar in New Jersey 2 o7.5 GW of solar installation by 2026 oMandates new program for grid supply solar oSiting rules for grid supply solar Definition of "Dual-Use solar energy project" 5 Dual-Use Solar Act 1. Solar energy aspect of a facility 2. ...

Jersey Electricity announce proposals for solar farm

Land south of Rue du Moulin à Vent, St Clement, could be the site for Jersey's first ground-mounted solar farm if plans by Jersey Electricity get the go-ahead. The utility company is looking to raise the amount of on-Island ...

New Jersey Community Solar PV Projects , NJDEP Open Data

Since its inception, the BPU has granted conditional approvals to 45 community solar projects in Program Year 1, and an additional 105 projects in Program Year 2, which have been mapped in this dataset.

Sun Works

Produce your own energy, save money & reduce your carbon footprint with Sunworks - Jersey's first dedicated energy optimisation provider. With over 550 local solar installations we are the trusted choice for homeowners and businesses wanting to invest in the future.

State Data Resources

NJCEP solar activity reports provide detailed information about all solar projects installed and currently under development in New Jersey. The list of solar projects is provided on the NJCEP website and can be sorted by municipality name. Green teams can look through the list to identify solar projects in their municipality.

Renewable Energy Data , NJ Energy Data Center

NJ Renewable Energy Project Activity Reports
 This New Jersey Clean Energy Program (NJCEP) link contains the most recent summary reports and project listings available for renewable energy technologies by program and by technology. Types of maps include U.S. Solar Resource Maps, PV Solar Radiation (10 km), Concentrating Solar Power Radiation

Solar Energy

This is a guide to using the NJ Community Solar PV Siting Tool. The purpose of this tool is to find the most beneficial locations to use solar energy. There are charts to describe the solar pipeline projects and solar installations as of May 2019. On the left-hand side, there is a list of programs that New Jersey's Clean Energy Acts does

Jersey Dairy and Jersey Electricity partner in solar power project

Jersey Dairy and Jersey Electricity are excited to announce that they have sealed a partnership to generate another half a million units a year of

local solar power. The Royal Court has granted a 25-year lease for JE to install and operate what will become the largest solar photovoltaic (PV) array in the Channel Islands ...

CEP completes 19 MW Foul Rift solar project in N.J.

A former brownfield site in Warren County, New Jersey, has new life thanks to solar. CEP Renewables, NJR Clean Energy Ventures and CS Energy have completed the 19 MWdc grid supply Foul Rift solar project in White Township, New Jersey. The project was built on a brownfield that had been the home to a composting facility for nearly 30 years.

Maps & Tools

The purpose of this data is to identify the boundaries of Solar PV Grid Supply Installations in New Jersey. The data can be used by project managers, government entities and other stakeholders to understand the spatial extent of current photo voltaic installations and plan for future projects.

Projects

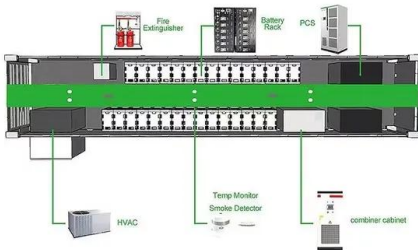

We install Solar Photovoltaic (PV) arrays on a number of different angled, pitched and flat roofs, no two projects are ever the same. We're confident to say that there are solutions for practically every type of property and application. Click ...

New Jersey Department of Environmental Protection Solar

...

Potential solar PV projects should be evaluated and assessed on a site by site basis. Lastly, this document will be updated periodically to account for land use and the economy in New Jersey.² Solar projects located in regulated areas require appropriate permitting; however, guidance on what land characteristics are preferred for

About

ASP was an early entrant to the solar PV market and that innovative spirit has continued with our cutting edge work in designing and installing complex solar, battery and microgrid systems. We've also taken that innovative spirit to new markets, developing PV projects and at times building the first commercial PV system in a state.

New Jersey Community Solar PV Projects , NJDEP Open Data

This dataset was developed to support the New Jersey Board of Public Utilities and their Community Solar Pilot Program. The NJDEP's Bureau of Climate Change and Clean Energy

supports the BPU in many clean energy related initiatives. Providing this geospatial dataset will enable users to view the spatial distribution of projects, as well as relevant information specific

...

Current State of Solar in NJ:

New Jersey is a national leader with regards to installed solar PV capacity, with more than 4.4 gigawatts (GW) from over 174,692 individual solar PV installations. According to the Solar Energy Industries Association (SEIA), New Jersey is ranked 8th in the United States for totaled installed solar PV capacity, behind California, Texas, Florida

Jersey Dairy and Jersey Electricity partner in solar power project

Jersey Dairy and Jersey Electricity are excited to announce that they have sealed a partnership to generate another half a million units a year of local solar power. The Royal Court has granted ...

Jersey Electricity announce proposals for solar farm

Land south of Rue du Moulin à Vent, St Clement, could be the site for Jersey's first ground-mounted solar farm if plans by Jersey Electricity get the go-ahead. The utility company is looking to raise the amount of on-Island solar photovoltaic (PV) generation as part of its strategy to increase diversity in on-island

electricity generation by
