

European Solar and Energy Storage Solutions

Joju solar Micronesia

Overview

Who are Joju solar?

Joju Solar are expert designers and installers of low carbon electricity technologies at all scales. We install solar panels, battery storage and electric car charging points. Importantly, we are specialists in integrating these technologies together into a bespoke designed solution for your property.

How did Joju start the community solar movement in the UK?

Joju help start the community solar movement in the UK. The King's Centre in Oxford was the first UK installation funded by a community share offer, and indeed the first site using a Power Purchase Agreement (PPA) for selling electricity to a host building. Feed-in tariffs launch in the UK, and the national market begins to grow rapidly.

Who is a solar project manager?

The project manager you work with, and who surveys your property will be a fully trained solar designer, and a real expert in PV and battery technology. That means you can ask any question you like and we'll be able to give you a straight answer. Learn more about solar panels for your home.

Joju Solar Reviews , Read Customer Service Reviews of >

Joju Solar worked with my wish list and presented the practical answer. Able to answer all technical questions. Their Project Manager then worked with us enabling late specification changes to be achieved. From start to finish we knew where we were and what was possible. All the roofers and electricians took pride in their work.
