Jupiter energy storage Mali

Jupiter Power's largest utility-scale battery storage facility to date

Jupiter is backed by EnCap Investments L.P., Yorktown Partners and Mercuria Energy, and has offices in Austin, Texas, and Chicago, Illinois. Jupiter has invested over \$250million to date in a portfolio of utility-scale energy storage projects operating or in construction in the U.S., with a leading pipeline of over 12,000 MW in active development.

Jupiter Power Secures \$225 Million Corporate Credit Facility to

Jupiter Power announces the successful close of a \$225 million corporate credit facility. The transaction strengthens Jupiter Power's ability to advance its expanding U.S. portfolio, which includes one of the nation's largest energy storage development pipelines, totaling over 12,000 MW.

Jupiter Power launches 400MWh battery storage in Houston, Texas

It stands on the grounds of the former HL& P H O Clarke fossil fuel power plant and can accommodate an additional 400MW/800MWh of battery storage generation. Callisto I is part of Jupiter's broader strategy to expand its large-scale operational battery energy storage projects beyond West Texas and into Houston.

Our Projects

Jupiter has developed an industry-leading portfolio of seventy projects totaling over 13,000 megawatts of energy storage projects from coast to coast. Our projects are located where the grid needs them the most, aiding the transition to a cleaner, more affordable and more reliable grid.

Jupiter Power , Power management for a changing grid

Energy storage is most valuable where the grid needs support - places with high levels of renewable penetration, constrained or outdated infrastructure, or anticipated capacity deficits. Our BOLT tool allows us to screen every node in

the U.S. for the most promising storage locations.

Energy Vault and Jupiter Power Announce Agreement for Battery Energy ...

"We are seeing strong demand for our EVS-enabled energy storage solutions on a global basis due to the unique ability of our platform to integrate and deliver both short and long duration (EVx) energy storage technologies." "Jupiter is pleased to be working with Energy Vault to expand our existing battery energy storage portfolio with

Michigan utility Consumers Energy signs 100MW

One of Consumers Energy's fellow Michigan IOUs, DTE Energy, issued a request for proposals (RFP) seeking approximately 120MW of energy storage resources in May, and earlier this month DTE began construction on a 220MW/880MWh standalone BESS project at the site of a decommissioned coal power plant.

Jupiter Power secures US\$70 million for 320MWh ERCOT projects

Through its Energy Finance group, First Citizens

acted as Coordinating Lead Arranger on the construction and term loan financing facility for the standalone battery energy storage system (BESS) projects, Jupiter said yesterday (17 July). BankUnited, N.A. and Siemens Financial Services were Joint Lead Arrangers.
