We provided assistance and support to local authorities, partners and NGOs and will continue to do so till the end of the unlawful invasion. Slava Ukraini! Contact Us I accept the terms of processing of my data Thank you!.

Are untapped re sources a solution to energy issues in Kyrgyzstan?

It is also mentioned that the untapped RE sources are the solution to resolve

the energy issues of Kyrgyzstan. However, the recent theoretical development identified that the current energy policy is considered as one of the key barriers for the development the RE sector in Kyrgyzstan.

Why does Kyrgyzstan need a new focus on hydropower generation?

The Kyrgyz government needs to change the focus from hydropower generation as it suffers from variable hydrology and seasonal demand issues towards more diversified and reliable energy resources to produce power. On the contrary, Kyrgyzstan is blessed with plentiful renewable energy (RE) resources (other than hydro resources) (IEA, 2020).
