About Us

Who is Rhino Onward? We provide solutions that help combat the negative impacts of climate change. With societies around the world maturing there is an increasing demand of energy. Climate change threatens our societies and environment. To reverse climate change, renewable sources of energy are needed to replace fossil fuels, however

Paul Thomas Croft

Paul Thomas founded Rhino Onward International, a company that focuses on green

energy solutions, and Golden Croft, which centers around wisdom. Paul Thomas was also the Founder, CEO, and Executive Chairman of Emerald Life Insurance, where they prioritized protecting individuals and their loved ones.

Concentrated Solar Power -- Rhino Onward International

ROI has a robust portfolio of in-house technology to convert solar energy into green electricity. CSP converts solar energy first into thermal energy, then mechanical, and then into electrical energy.

Water Desalination -- Rhino Onward International

ROI takes in two untapped resources, solar energy, and brackish water to produce green electricity, hydrogen, and potable water. As part of our original process, we treat brackish water from either a deep formation, unusable aquifer, or seawater for either direct delivery or to prep the water to be used in hydrogen production.
