# Latest cases of disputes over photovoltaic panel installation

## Overview

---

Why are prosecutors investigating rooftop solar?

Across the country, prosecutors are investigating high-pressure sales tactics and misleading financing arrangements. Some customers say they were victims of fraud and forgery. This threatens rooftop solar's impressive momentum. Now, some solar companies are working to repair the industry's reputation.

Are customer complaints a problem in the solar industry?

Customer complaints against the country's residential rooftop solar industry have increased dramatically in recent years. One-star ratings on Solar Reviews increased more than 1,000% since 2018. Across the country, prosecutors are investigating high-pressure sales tactics and misleading financing arrangements.

Is vision solar a class-action lawsuit?

A class-action lawsuit accuses Vision Solar of targeting vulnerable populations and misrepresenting the benefits of installing solar panel systems.

Who sued vision solar?

Vision Solar was also sued by Connecticut Attorney General William Tong in March after the office received more than a dozen consumer complaints. Tong said his office is investigating numerous complaints against the solar industry's sales tactics, but Vision Solar's practices are "far and away the worst" they had seen.

Did California's rule on solar power installers have unintended consequences?

California is sued over its rule on solar power installers, specifically a restriction on who can install batteries on solar units. Recent actions may have had unintended consequences, according to a state licensing official. A house in Los Angeles outfitted with rooftop solar panels. (Philip Cheung for The New

York Times).

Is the solar industry in trouble?

Residential solar representatives dispute the claim that the industry is in trouble; though installations will decline in 2024, the number of homes with rooftop solar will increase from 4 million today to 10 million by 2030, according to Stephanie Bosh, vice president of communications for the Solar Energy Industries Association.
