Liechtenstein bright life solar

Overview

How do Liechtenstein municipalities get the energy City label?

Liechtenstein municipalities can obtain the Energy City label if they continuously ensure efficient energy use, increase investments for renewables, including solar energy, wind energy and hydropower, and promote environmentally compatible mobility. The certificate is awarded by the Energy City Sponsoring Association.

Why is Liechtenstein a good place to live?

For instance, the Principality has the world's largest share of photovoltaics per capita. Furthermore, Liechtenstein is also an important role model regarding sustainable energy policy. In 2003, the municipality of Triesen was the first to join the Energy City Association. Triesen was certified as an Energy City one year later.

Is Liechtenstein a good place to start a business?

When it comes to eco-innovations, the world's sixth-smallest state is at the forefront, even by global standards. Ms. Monauni, Liechtenstein is best known for its specialized, internationally networked financial center. However, the Principality also has a high level of industrialization. What makes the location so attractive for companies?

.

Liechtenstein bright life solar

Sonne

Die Energiewende in Liechtenstein ist solar. Die Nutzung der Sonnenenergie ist deshalb zentral. Wie können wir Sonnenenergie nutzen? Würden wir die gesamte Sonneneinstrahlung in Liechtenstein mit den heute verfügbaren effizientesten Modulen in Strom umwandeln, könnten wir über ein Jahr hinweg 20'000 GWh Strom produzieren

BRIGHT LIFE SOLAR

1 review and 2 photos of BRIGHT LIFE SOLAR "We contracted with them through McCormack Roofing, Construction & Energy Solutions and did a new roof and solar as one job. We wanted enough panels to make a difference on our electric bills and it accomplished that- we pay \$20-30 per month for electricity now even running the AC and pool pump a lot during summer.
