Longi photovoltaic panel export trade situation

Overview

Will China's Longi Green Energy Technology 'adjust' production amid a 'complex industry environment'?

REUTERS/Muyu Xu/File Photo Purchase Licensing Rights BEIJING, June 4 (Reuters) - China's Longi Green Energy Technology (601012.SS), one of the world's largest solar panel manufacturers, said on Tuesday it would "adjust" production amid a "complex industry environment", but remains optimistic about the sector's future.

Where does Longi ship solar panels?

Three of LONGi's subsidiaries, which are among the top five suppliers of solar panels to the U.S., loaded between 61% and 81.5% of their shipments at ports in China and Hong Kong during the second quarter, according to shipping records collected by Panjiva.

Why has the photovoltaic industry been hit?

The photovoltaic industry has been hit by various factors including price changes and trade policy adjustments this year, Longi said in a statement. The United States last month unveiled steep tariff hikes on Chinese imports including solar panels, electric vehicles and batteries.

Why did Longi change its production plans?

Longi said it will "adjust its production plans" according to market changes. The company also cited digital technology upgrading as another reason for its production adjustment, adding that it is "firmly optimistic" about the long-term uptrend of the global photovoltaic industry.

How many photovoltaic modules will China buy in 2024?

Recently, China Huaneng Group, one of the five largest state-owned power generation enterprises in China, announced the details of the second batch of photovoltaic module procurement framework agreement for 2024. Of note,

the third batch of bids will purchase 1GW of back contact modules.

Where does Longi buy polysilicon?

LONGi buys polysilicon, a key ingredient in most solar panels, from at least three producers that source their raw material from Hoshine Silicon Industry Co. Ltd., according to a recent report from the Helena Kennedy Centre for International Justice at Sheffield Hallam University in the U.K.

Longi photovoltaic panel export trade situation

"The PV industry is navigating a complex competitive landscape"

Mr. Zhang, you recently held the global kick-off for your new back-contact based panel Hi-Mo 9 with a record silicon solar cell efficiency of 27.3% in Madrid. What is the role of ...

Analysis: China's Solar Manufacturers Scour the Globe Amid Trade

Chinese top solar companies, like Longi Green Energy, are expanding globally with varied strategies to navigate trade barriers and access subsidies, particularly focusing on ...

High-efficiency Module, Longi solar module

LONGi High-efficiency solar Module, widely adopting PERC solar cells technology, Half-cut Module Technology and Bifacial PV technology, Mono Silicon Crystalline Technology has become a leading manufacturer and brand in the ...

LONGi Hi-MO 5: The Award-Winning Solar Panel ...

The LONGi Hi-MO 5 solar panel series is also

compliant with the IEC 61730, IEC 62941, and UL 61730 certifications. The modules also include an IEC Class C fire resistance under the UL Type 29 certification. Additionally, ...

China's LONGi to build three solar panel factories in ...

News about the solar panel factories in Malaysia came after, in March 2023, the Chinese company announced partnering with Invenergy, a US power developer, to build a solar panel assembly factory in the US state of ...

Indonesia and Singapore ink MoU to boost renewables ...

A private-sector initiative MoU signed by LONGi and the Indonesian Solar Panel Industry and Renewable Alliance (INSPIRA) consortium will support both countries' government-to-government MoUs. It will pave the ...
