Malaysia phi energy

Overview

What is Malaysia's Energy Outlook?

The outlook provides a comprehensive, renewables-focused, long-term energy pathway for the transition to a cleaner and more sustainable energy system in Malaysia.

Is Malaysia a responsible global citizen?

Malaysia endeavours to achieve its renewable energy objectives underscores its commitment to serve as a responsible global citizen making a substantive contribution to addressing climate change.

Will Malaysia achieve net-zero emissions by 2050?

The NETR sets ambitious targets for Malaysia, aiming to achieve net-zero emissions by 2050. The plan is comprehensive and outlines a gradual increase in renewable energy shares, targeting 31% by 2025, 40% by 2035, and an impressive 70% by 2050.

How will the Rt Initiative Impact Malaysia's economy?

Simultaneously, these initiatives are projected to reducing the greenhouse gas (GHG) emissions by over 10,000 Gg CO₂eq (gigagrams carbon dioxide equivalent) per year. The Responsible Transition (RT) initiative, a key component of the NETR, is poised to deliver substantial positive impacts on Malaysia's economy.
