Metrix energy Palestine

Metrix energy Palestine

An overview of renewable energy strategies and policies in Palestine ...

Palestine has a low energy intensity, measured as primary energy divided by GDP, which was only 3.3 MJ/US\$ in the year 2019 indicating a low energy consumption (UNCT & OPM, 2020). The World Bank Group (2017) study estimated the potential of available RE to approach 4246 MW of which 98.3% is solar energy.

Services

Matrix Energy is involved in the blending and marketing of fertilizers, providing agricultural solutions that enhance crop productivity and contribute to food security. 20 Years of Efficient and Quality Services We are driven by our clear ambition to establish ourselves as the preferred energy partner for success.
