Overview

What is energy in Monaco?

Energy in Monaco describes energy production, consumption and importation in the Principality of Monaco . Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France.

Who owns the electricity in Monaco?

Monaco's sole national power company is Société Monégasque de l'Electricité et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services. SMEG is 60% owned by Engie, 20% by the State of Monaco, 15% by EDF, and the rest by private investors.

How much electricity does Monaco use?

In 2018, the country used around 536,000 MWh of electricity, of which a majority of it was used tertiary services. The first and later sole electric plant was a gas-fired power plant built by the casino operator SBM at base of Fort Antoine in Monaco-Ville.

Does Monaco use fossil fuels?

Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France. Monaco's sole national power company is Société Monégasque de l'Electricité et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services.

Monaco: Energy Country Profile

Monaco: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

MONACO SOLAR © Carlo Borlenghi; & ENERGY BOAT ...

The UIM helps to stage the annual Monaco Solar & Energy Boat Challenge in order to:

- o Bring together technical and management experts to help redefine powerboating and motorsports by developing clean-source propulsion systems for the future.
- o Promote solar power technologies and energy alternatives as the future of motorsports.

Monaco to Generate Solar Energy from 30 MW Solar Park

Monaco has joined forces with France to establish a large solar park, representing a significant advancement towards its sustainable energy ambitions. Situated in France, this photovoltaic park will harness solar energy to produce clean electricity for Monaco, decreasing its dependency on fossil fuels and lowering its carbon emissions

"Monaco is investing in solar"

During a press conference held late in the morning on Thursday 29 June, Marie-Pierre Gramaglia, Minister of Public Works, the Environment and Urban Development, presented two aspects of Monaco's investment in solar power: a solar resource map for the Principality and the launch of a joint venture by the Prince's Government and SMEG to
