Montserrat outdoor server cabinet

Overview

What is an outdoor server cabinet enclosure?

AZE's 16U Outdoor Server Cabinet Enclosures are designed to protect your sensitive network equipment from harsh environments, with waterproof and dustproof features to safeguard it from the elements, while still keeping the equipment secure outside.

What is an outdoor server rack?

An outdoor server rack or patch cabinet is a 19-inch cabinet that has four 19-inch mounting profiles. In these profiles, you directly attach 19-inch network equipment, such as a rack server, patch panel, switch or ups. The difference between a 'normal' server rack and an outdoor server rack is that the outdoor rack is weatherproof.

Are outdoor server cabinets waterproof?

The 19" waterproof outdoor server racks and cabinets safeguard your sensitive electronics in outdoor environments and ensure they function smoothly and reliably. Our outdoor server cabinets are built to withstand everything, from rain and snow to dust and hot sun. They're even tough enough to resist vandalism.

What is a ze outdoor floor standing server cabinet enclosure?

No product is being compare. AZE's outdoor floor standing server cabinet enclosures are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water.

How does the outdoor server rack cabinet work?

The cabinet design allows natural wind cooling through filtered vents on the front door and venting under the lip of rain hood. The outdoor server rack cabinet comes 2 or 4 fans with a dust-proof cover located at the top of the cabinet for greater airflow/cooling.

Can outdoor server rack cabinets be customized?

Outdoor server rack cabinets can be customized for all Outside Plant applications - special engineering and additional equipment integration also available. Additional cabinet sizes are available. Call, email us for information and pricing.
