

European Solar and Energy Storage Solutions

Neotech energy Sudan

Overview

How can Sudan restructure its energy sector from Morocco?

One of the most useful strategies Sudan can adopt from Morocco is the use of new legislation and new policies to restructure the energy sector. This recommended adjustment could encourage future investments targeting renewable production and attract more foreign and local investors to participate in renewable production projects.

How can Sudan achieve energy self-sufficiency?

Encouraging solar and wind power in the country's energy portfolio could help Sudan achieve its goal of energy self-sufficiency. Egyptian policies such as nurturing and promoting renewable technologies and scientific research, feed-in tariffs, and tax exemptions could help Sudan achieve its objectives.

Can geothermal energy be exploited in Sudan?

Some of the few available studies have revealed such potential. Geothermal energy has been discovered in the Suwakin area, the Jebel Marra volcanic mountains, and other remote areas . Geothermal data collected from oil wells reveals huge potential for exploiting geothermal energy in many areas of Sudan.

Is Sudan's Energy Sector Sustainable?

Further, Sudan's energy sector is currently subsidised by the government. Government subsidies to the sector totalled \$667 million in 2019. This represents 13.5% of total government expenditures . Financial sustainability could be achieved by introducing gradual tariff adjustments.

What can Sudan do with abundant onshore wind?

With abundant onshore wind, Sudan can adopt successful African strategies and attract regional and international energy initiatives, such as the Africa-EU partnership program, the Africa Clean Energy Corridor, and Power Africa .

What are the challenges facing Sudan's energy sector?

Sudan's energy sector is facing numerous challenges: persistent blackouts, an inadequate energy infrastructure, and a poor and scattered government response .

Neotech energy Sudan

Neotech Energy se diversifie dans l'industrie

Neotech Energy (16 salariés) est née des cendres du cabinet conseil en ingénierie industrielle, Acepp, dont elle a repris l'activité de maintenance en 2017. Depuis, la société bretoise d'installation et de maintenance électrique travaille avec l'industrie navale et cherche à décrocher de nouveaux marchés dans l'industrie.

ENERGY PROFILE Sudan

developing areas. Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter 27 of the Harmonised System (HS). Capacity utilisation is calculated as annual generation divided by year-end capacity x 8,760h/year. Avoided
