Outdoor All-in-one ESS cabinet

Overview

Where is NZ Energy based?

The company is based in Motueka, and generates their renewable hydro and solar electricity locally within the Nelson and Tasman Regions by operating small hydroelectric power stations in Haast, Fox, Ōpunake and Raetihi. In August 2008, NZ Energy proposed to build a 4.6 MW hydroelectric scheme at Lake Matiri near Murchison, Nelson.

What are New Zealand's energy supply and demand challenges?

In brief : While New Zealand's energy supply side challenges capture headlines and headspace, the demand side of the equation is often overlooked. High electricity prices and recent policy shifts make it challenging to attract and retain industrial customers.

Is New Zealand's energy sector stalled by a supply-demand standoff?

New Zealand's energy sector is stalled by a supply-demand standoff, but there are ways to stimulate growth and attract investment. In brief : While New Zealand's energy supply side challenges capture headlines and headspace, the demand side of the equation is often overlooked.
