Arcola Energy: fuel cell deployment is deliverable and

Arcola Energy has been delivering clean and efficient energy systems with hydrogen and fuel cell technologies since its inception in 2010. It was founded by Dr. Ben Todd, CEO, to address the 'deployment gap' he found between ever-evolving clean energy technologies and end user needs.

Product Sectors

The Renewable energy mix in Nigeria is dominated by Hydropower contributing up to 63% of the total renewable energy sources. Renewable energy technologies are a constant challenge for governments, utilities and private projects, however through increased digitisation, retrofits and hybrid approaches progress is being made.

How indigenous metering innovation is driving energy efficiency in Nigeria

A vision for Nigeria's energy future. The indigenous company's achievement of installing over 3 million smart metres this year is just the beginning. The company's ongoing efforts to roll out even more metres in the coming months reflect its deep commitment to driving energy efficiency and transparency across Nigeria.

Ballard acquires Arcola Energy to help customers integrate ...

With the acquisition of Arcola, we will make it easier for existing and new OEM customers globally to offer FCEVs by providing stronger support for the integration of our fuel cell

engines into their vehicle platforms, including powertrain integration, vehicle integration and application engineering.

Energy Commission of Nigeria

His unwavering commitment to innovation and sustainability stands as a beacon of hope in Nigeria's energy renaissance. Energy Commission of Nigeria Headquarters: Plot 701C, Behind National Mosque Central Business District P.M.B. 358 Garki, FCT-Abuja. Email: dg@energy.gov Tel: 08051128884
