

European Solar and Energy Storage Solutions

Oort energy ltd Panama

Overview

What does Oort energy do?

Oort Energy is on a mission to globally deploy our electrolyser technology, making green hydrogen economical so market demand drives the transition to net-zero. Making green hydrogen economical so market demand drives the transition to net-zero We will deploy electrolysers across the globe, giving customers the best value hydrogen on the market.

Will Oort energy's next-generation electrolysers revolutionise the green hydrogen sector?

The company's next-generation electrolysers produce green hydrogen using water and renewable electricity, setting new benchmarks in efficiency, scalability, and cost-effectiveness. This latest development marks a significant step in Oort Energy's journey to revolutionise the green hydrogen sector.

Can Oort energy make green hydrogen economically viable?

At Oort Energy, our mission is crystal clear: to globally deploy our revolutionary electrolyser technology and make green hydrogen economically viable. Here, our CEO and co-founder Nick Van Dijk explains how our unique modular stack system will help drive down the costs of green hydrogen, actively contributing to a more sustainable future.

What makes Oort energy unique?

Oort Energy's advanced electrolyser technology positions the company to play a significant role in this transition, providing a cost-competitive alternative to fossil-fuel-derived hydrogen. Oort Energy's progress is driven not only by technological innovation but also by a clear vision of a sustainable future.

Is Oort energy off-grid?

Despite being off-grid, Oort Energy is delivering pure, dry, green hydrogen at well within the ISO14687 fuel cell specification. It has also responded well to a

robust series of key performance tests. This achievement underscores Oort Energy's commitment to innovation and environmental stewardship in the field of renewable energy.

Why is Oort energy a lean company?

By running a lean operation, Oort Energy can run both profitably and with a reduced carbon footprint. The environment is the reason we exist, but our operations need to reflect this too. We cut waste. We spend sensibly. We are efficient.

Oort energy ltd Panama

Oort Energy Ltd

Oort Energy Secures £5M Seed Funding to Decarbonise Industry with Green Hydrogen. Oort Energy, a UK-based next-generation hydrogen electrolyser developer, announced that it has closed its oversubscribed £5M Seed raise led by Energy

Financial Controller

Location: Bristol Salary: £65 000 - £80 000 depending on experience Oort Energy Is a new, innovative hydrogen electrolyser company founded on over 40 years' experience in the field. Oort Energy is looking to deploy its next generation electrolyser systems worldwide.

Research and Development Manager , Oort Energy

About Oort Energy We are a pioneering hydrogen electrolyser company built on a foundation of over 40 years' expertise in the field. As we embark on a global journey to deploy our cutting-edge next generation electrolyser systems, we are looking for dynamic and forward-thinking individuals to join our team.

Oort Energy: 250kW Next Generation PEM Electrolyser

Oort Energy (headquartered in UK) announces a groundbreaking achievement with the successful operation of their 250kW demonstrator in Harlaxton, running continuously on solar power for multiple days. This milestone marks a pivotal moment as the first instance of a UK company achieving direct solar hydrogen production at a commercial scale.

Mechanical Engineer

About Oort Energy We are a pioneering hydrogen electrolyser company built on a foundation of over 40 years' expertise in the field. As we embark on a global journey to deploy our cutting-edge next-generation electrolyser systems, we are looking for dynamic and forward-thinking individuals to join our team.

Oort Energy is set to revolutionise green hydrogen electrolysis

Oort energy, a pioneering UK-based company specialising in hydrogen electrolysis, has achieved a critical milestone by completing the construction of its groundbreaking 1MW electrolyser.. Established in 2021 by electrolyser industry veterans, Oort Energy is committed to reducing the costs associated with green hydrogen production and driving ...

Oort Energy is set to revolutionise green hydrogen electrolysis

By driving down costs and proving the viability of its technology, Oort Energy is helping to accelerate the adoption of green hydrogen, potentially preventing gigatonnes of carbon emissions and laying the foundation for a sustainable energy future.
