

European Solar and Energy Storage Solutions

Oxdrive Ltd Gabon

*Support photovoltaic input and AC mains input
Suitable for home energy storage and emergency backup power supply*

Oxdrive ltd Gabon

OxDrive Ltd

OxDrive produces in-wheel electric drive (e-hubs) designed and manufactured specifically for the needs of Agritech, construction and associated electric off-highway applications. Unique in their durability, torque and compact size, OxDrive e-hubs offer the very best performance whilst reducing R& D and component cost.

OxDrive uses Inngot IP audit to help plan its IP strategy

As part of the TDAP program, OxDrive used Inngot's Goldseam online tool to identify and catalogue both its registered IP rights and its intangible 'know-how' and then had a bespoke IP audit from Inngot's team, which consists of an online meeting, desk research and a comprehensive report.

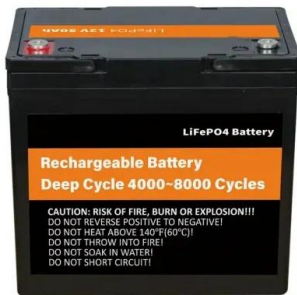

£170,000 govt funding for OxDrive e-hubs

Chris Horton, MD of OxDrive Ltd which is a subsidiary of Performance Projects enthused: "We are incredibly proud, and honoured, to have been selected. "We look forward to working with the Advanced Propulsion Centre and its partners, developing and commercialising our exciting new e-hub technology.

Performance Projects would like to announce the formation of OxDrive Ltd. Specialising in the supply of integrated, rugged, high torque drivelines for agritech, construction and more, OxDrive Ltd is the result of the £0.5m Innovate UK backed collaborative project lead by Performance Projects. Chris Horton, Managing Director, comments "OxDrive units set the standard for [...]"

Chris Horton, Author at Performance Projects

1/2/22 - OxDrive announced. Performance Projects would like to announce the formation of OxDrive Ltd. Specialising in the supply of integrated, rugged, high torque drivelines for agritech, construction and more, OxDrive Ltd is the result of the £0.5m Innovate UK backed collaborative project lead by Performance Projects.

OxDrive - OxDrive Fully Integrated Electric Hubs

OxDrive e-hubs provide the speed, torque and durability needed for the exciting new generation of electric off-highway vehicles. Our e-hubs have

been designed as an integrated solution, engineered to operate over extended periods in ...

OX Drive

The OX Drive Android app is an extension to Open Xchange's OX App Suite/OX Cloud and requires an active OX App Suite account. With this app you can access all your photos, files, documents and videos that are stored in OX Drive- at any time and from any Android device.

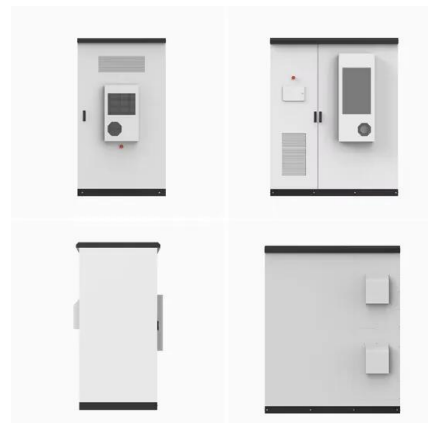

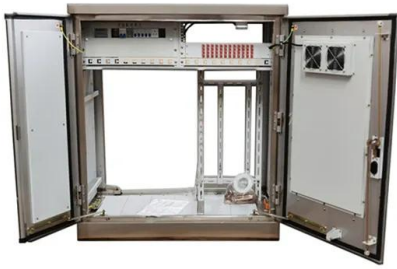

Investors - OxDrive

OxDrive is EIS/SEIS approved, and we are currently in a late seed funding round to transition the e-hubs from low volume pre-production sales into initial volume production, develop our customer base, and further enhance product capability and range.

About Us

OxDrive specialises in the design and manufacture of robust, integrated, electric drives for off-highway use, including agritech, construction and more. The need for 'one box' integrated units with gearbox, motor, motor controller and brake was identified whilst the OxDrive founders were leading the design & development of fully autonomous

About Us - OxDrive

Terence co-founded the consultancy from which OxDrive was born, leading the design of many innovative projects including two autonomous tractors and the OxDrive driveline family. About the company OxDrive specialises in the design and manufacture of robust, integrated, electric drives for off-highway use, including agritech, construction and more.

Partners
