Panasonic Energy Names Senior Leadership to Kansas EV Battery ...

Panasonic Energy Co., Ltd., a Panasonic Group company, today announced senior leadership for its new lithium-ion battery manufacturing facility in De Soto, Kansas. These talented professionals will play a vital role in accelerating production to meet surging domestic electric vehicle battery demand. Panasonic's senior leadership will fill key roles across various departments, including

Energynautics completes project for St. Maarten

Energynautics has completed a project that outlines a sustainable energy strategy for NV GEBE, the national utility company of St. Maarten. Commissioned under the National Recovery Program Bureau's "Emergency Recovery Project 1," the study provides actionable recommendations to address immediate energy needs and paves the way for a

De energietransitie in Aruba, Curaçao en Sint Maarten

De behoeften en mogelijkheden om de energietransitie vorm te geven op de Nederlandse eilanden in Caribisch gebied - Aruba, Curaçao en Sint Maarten - zijn anders dan in Europa. In dit onderzoek is er gekeken naar verduurzaming van de elektriciteitssystemen en wegtransport op deze eilanden en de kosten die dit met zich meebrengt.

National Energy Policy National Energy Policy f

On a macro-economic level, energy costs are of great concern for the Government of Sint Maarten. In 2012 Sint Maarten spent a total of NAf 264.8 million on importing of oil products, which comprises a remarkable 18% of the total GDP1. This shows the heavy dependency on imported oil for Sint Maarten, and its country's vulnerability as this

Energynautics: Solar panels key to St. Maarten's energy future, ...

A significant focus of the Energynautics report is the integration of renewable energy sources into St. Maarten's power grid. The consultancy identified solar PV installations as the most practical and viable option for the island's transition to cleaner energy.

The Daily Herald

St. Maarten faces significant challenges in transitioning to 100% renewable electricity due to its limited space, lower wind speeds, and frequent hurricanes. The island's small and hilly terrain makes large-scale solar and wind energy installations difficult, as many potential locations are already used for tourism and housing.
