Home

With advances in PV technology, the lifetime of Aptech's solar panels is 20+ years. As solar systems do not require expensive diesel fuel or frequent maintenance and repair, most systems pay for themselves in as little as 1-2 years. Households and businesses are able to benefit by pocketing those energy savings.

Central African Republic

Less than 3% of the population has access to electricity in Central African Republic. Grid-based electricity supply is insufficient to meet electricity demand: it is unavailable 28% of the year on average, mainly due to generation outages. Renewables such as solar panels, wind turbines and hydroelectric dams generate electricity without
