Company (PE) to provide sustainable energy to the country's remote regions while also helping the Government of Tajikistan to diversify its renewable energy (RE) generation capacity.

Tajikistan: Energy Country Profile

Tajikistan: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
