## Dual-Objective Optimization Scheduling Strategy Considering V2G

Through the establishment of a coordinated scheduling model of battery and V2G in the photovoltaic microgrid with the dual goals of economy and grid-connected load fluctuation rate. ...

## Stochastic-based scheduling of the microgrid operation including ...

The microgrid operation is optimised in uncertainty environment through a linear two-stage stochastic model. The stochastic scheduling model which is solved by mixed-integer linear ...

### Optimal Integration of Hydrogen-Based Energy Storage Systems in

The feasibility and cost-effectiveness of hydrogen-based microgrids in facilities, such as public buildings and small- and medium-sized enterprises, provided by photovoltaic ...

### Research on Photovoltaic Power Capacity Optimization in Microgrid

A microgrid with n nodes and n-1 feeders is taken as an example to set a linear programming model. Taking a microgrid with 11 nodes, first sensitivity analysis method is applied to ...

Standalone photovoltaic and battery microgrid ...

The design of a standalone photovoltaic microgrid is aimed to find the cheapest way to go for either a single rural house or a group of 200 rural houses with similar load demand as a long-term

### Microgrid dynamic responses enhancement using artificial neural ...

The microgrid (MG) is described as an electrical network of small modular distributed generation, energy storage devices and controllable loads. In order to maximize the output of solar arrays, ...

### Resiliency oriented control of a smart microgrid with photovoltaic

?: The resiliency of a standalone microgrid is of considerable issue because the available regulation measures and capabilities are limited.Given this background,this paper presented a ...

## Optimal allocation of photovoltaic energy storage microgrid ...

??: In the electricity market environment, thinking about the influence of demand side response and energy storage system on microgrid, it jointly optimizes the configuration of the system ...
