Photovoltaic bracket purlin fixing pad

Overview

What is solar panel support with Z profiles and purlins brackets?

Solar power systems use the sun's rays as a high-temperature energy sources to produce electricity in a thermodynamic cycle. Thereby we have to introduce some solar panel support with Z profiles and purlins brackets, which are hot galvanized steel material for use in long time with better surface and the best cost during the system construction.

What is a purlin through hole clamp?

Bottom access, Purlin Through Hole clamps are Type 304 Stainless steel for higher strength and durability. The clamp allows for direct PV module mounting to purlins and other structural members. The patented pre-assembled clamps eliminate handling small parts on the job site and provide for a faster installation.

How do you install a photovoltaic system on a roof?

When mounting on corrugated and sandwich roofs, you fix the photovoltaic installation directly to the purlins of the roof construction. For wooden purlins, you need the stock screw set for wood and for steel purlins the stock screw set for steel.

How does a purlin work?

For you, this means working more efficiently, with less fuss. The mounting bracket is attached to the roof plate screws in the purlin, keeping the roof watertight. Pressure is evenly distributed and point loads are reduced because the bracket leans on the valleys and fits precisely around the wave of the roof.

Do I need a stock screw set for a wooden purlin?

For wooden purlins, you need the stock screw set for wood and for steel purlins the stock screw set for steel. The centric connection of the C-rails to

the stock screw transfers the load centrally on the stock screw - this means that it is not additionally subjected to bending stress.

What is a PV ezrack wing?

Available with a module length up to 2180mm, widths up to 1100mm, PV-ezRack® Ascent Wings offers flexible solutions and suitable for all framed PV panels with height from 30 to 46mm. Power optimizer, micro inverter can be easily accommodated. Click in installation, manufactured from aluminum offer excellent corrosion resistance.
