

Photovoltaic panel hanging board hook

Overview

Which roof hooks are suitable for a tiled roof?

SolarRoof has high-quality stainless steel roof hooks which are suitable for most types of tiled roofs. Side-mounted or landscape tile interfaces can be used to cater for special mounting needs. Roof hook extenders are also part of the range for installations on high corrugation tiles such as Spanish tiles.

What makes solarroof a good roof hook?

Corrosion resistance is achieved through anodised structural grade aluminium and stainless steel components. The unique and innovative Z-module technology enables a surprisingly quick and easy installation. SolarRoof has high-quality stainless steel roof hooks which are suitable for most types of tiled roofs.

What is a roof hook extender?

Roof hook extenders are also part of the range for installations on high corrugation tiles such as Spanish tiles. As part of the PV-ezRack® range, SolarRoof™ comes with a 12-year product warranty. Our versatile rail, Z-module and splice kit eliminates the need for onsite cutting, making SolarRoof™ a safe and cost effective PV mounting system.

How do you install roof panels and hooks?

Plan the layout of the panels and hooks to optimize exposure to sunlight.
Positioning the Hooks: Position the hooks according to the planned layout. Accuracy here is crucial to ensure that the panels will be correctly aligned.
Securing the Hooks: Attach the hooks to the roof using the appropriate tools and fasteners.
