Photovoltaic panels for rent on rooftops

Overview

Can I install solar panels on the roof of a rented home?

In theory, yes. But because installing solar panels is a significant property upgrade, it would require your landlord's permission. Can a solar roof power a home?

Install Solar Roof and power your home with a fully integrated solar and energy storage system. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your home's natural styling. Schedule a virtual consultation with a Tesla Advisor to learn more.

What is a solar rooftop installation?

Solar Rooftops installations provide energy directly to the grid to help LADWP meet the clean energy goals of Los Angeles and California. LADWP performs a home evaluation, issues permits, develops designs, and installs the SRP system at zero cost to customers.

Can a solar roof be used with a Powerwall?

Combine your Solar Roof with Powerwall—a home battery featuring an integrated solar inverter for increased efficiency and dependable energy storage 24/7. With the Tesla app, you can monitor your energy production in real time. Control your system from anywhere with instant alerts and remote access.

Should you lease or rent solar panels?

Leasing or renting solar panels is an increasingly popular option for homeowners who want to take advantage of solar energy without the significant upfront costs of purchasing a system. This approach allows you to benefit from clean, renewable energy while avoiding the responsibilities of system ownership and maintenance.

What is solar roof & how does it work?

It stores the energy you produce with Solar Roof so you can power your home anytime—at night or during an outage. Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof.

Does LADWP pay for a solar roof?

LADWP will receive all of the energy generated by the system and the home consumption will not be affected. The customer will receive a check or bill credit as payment for the use of the rooftop, regardless of the amount of solar energy produced from the system. For additional information, please read the Solar Rooftops Guidelines:
