Portable wind turbine generator

Overview

What is a portable wind turbine?

Imagine harnessing the power of the wind while embracing the freedom of the great outdoors. A portable wind turbine offers just that—an opportunity to bring renewable energy to your adventures.

Can a wind turbine power a home?

But solar isn't the only game in town. Wind has long been an option for powering homes and even whole cities. The problem is that few devices knew how to properly harness it in an ultra-portable, camp-friendly size—until now. Meet the Shine go-anywhere wind turbine. What is the Shine portable wind turbine?

.

Is Shine a good wind turbine generator?

Our 3-in-1 mini wind turbine generator, charge controller, and power bank just got better! "Shine has scaled down supersized wind turbines into something you fit into a backpack." "Its portable nature and user-friendly design are unique." "A marvel of efficient design. Shine is capable of generating 40 watts."

How much power can a wind turbine generate?

The turbine can collect 3 phones' worth of power in an hour at maximum rated wind speeds (28 mph). When it comes to generating high amounts of energy quickly, the wind wins! This is because the wind has a cubic relationship with power. As wind speeds double, power output increases by a remarkable 8x.
