

European Solar and Energy Storage Solutions

Powerlink energy Seychelles

Overview

What makes Powerlink a top power generator manufacturer?

As a top power generators manufacturer, we have launched high-quality diesel generator sets, gas generator sets, gas cogeneration systems, lighting towers, air compressors, batteries, and hybrid power systems. Recognized as a specialist manufacturer in the energy equipment industry, PowerLink emphasizes superior performance and reliable quality.

How many sales service providers does Powerlink have?

PowerLink has more than 218 sales service providers in more than 98 countries. Mutual Trust is the top priority for every business cooperation partnership. Our reputation as a world leader in the engine-driven energy equipment industry has been established over more than 23 years.

Why should you choose Powerlink?

Customer feedback and satisfaction have consistently affirmed the high reliability and performance of PowerLink products after years of use in project sites. We have engaged in international trade for over 25 years, delivering energy solutions worldwide. PowerLink has more than 218 sales service providers in more than 98 countries.

Powerlink energy Seychelles

PowerLink Energy Australia: Premium Energy Equipment

As part of PowerLink Australia's commitment to cleaner energy, we have developed our new range of Net Zero products, comprising of Solar Mobile Lighting Towers, as well as Portable Power Banks. Both feature noiseless and sturdy designs, which are specifically made to endure Australia's harsh weather conditions.

PowerLink - gjør strømmåleren smartere

Siden PowerLink benytter seg av Edge Computing og dermed prosesserer data lokalt i enheten, er det mulig å sette opp forskjellige triggere som varsler dersom noe unormalt oppdages i strømforbruket. Et sykehus er helt avhengig av å følge med på sin strømbruk og variasjoner. Dersom det brukes for lite strøm i én del av sykehuset i forhold

Gas Generation & Gas Cogeneration Manufacturer , PowerLink

Founded in 2001, us at PowerLink are committed to providing our global users with advanced technology and high-quality gas-to-power systems utilising natural gas, biogas, LPG gas, and other gas variants.

Gas to Power Application for Sustainable Energy

PowerLink gas-powered generator sets provide you with a continuous, economical, reliable and sustainable source of power. Utilizing natural gas, biogas or other gases, PowerLink generator sets feature cutting-edge technology that can provide power, heat and cold according to application's needs.

PUSUNG-R (Fit for 19 inch cabinet)

Flexible And Reliable Gas Cogeneration System

At PowerLink, we offer a wide range of gas cogeneration systems, providing our customers with an excellent heat and power solution, which utilises natural gas and biogas as a fuel source. A cogeneration system is both flexible and reliable, because of its efficient use of energy, industrial-scale cogeneration is more economical and
