## Development of the transmission system

The TGDP for 2023-2032 includes the first technological revolution in line with patterns from highly developed power systems with a large share of RES in the generation mix. This refers to the construction of an HVDC line connecting two clearly defined areas of Poland - north and south. W ocenie PSE, uzupełnienia te pozostają spójne

Our Lifepo4 batteries can be connected in parallel and in series for larger capacity and voltage.
