Burundi commits to double solar power capacity

The grid-connected 7.5MW solar power plant, located in Mubuga, became operational in 2021. It has since then provided more than 10% of Burundi's electricity. During the official inauguration, President Évariste Ndayishimiye pledged, with support of development partners, to double the generating capacity at the plant.

Solar in Burundi - Just Add Water

According to the International Renewable Energy Agency, Burundi had just 5 MW of solar generation capacity at the end of last year. Redigeso, which has a monopoly of power supply in the country and serves all its 76,000 customers in the capital, Bujumbura, has peak demand of 58 MW, most of which is met by hydropower and diesel.

Burundi's first grid-connected solar farm reaches ...

A pioneering 7.5MW solar PV plant has reached commercial operation in Burundi, increasing the country's generation capacity by over 10%. It's the country's first substantial energy generation project to go online in over ...

First solar field in Burundi

lights up tens of thousands of homes

A multinational effort to bring solar power to Burundi has been realised with the commercial operation of the country's first-ever solar field. The pioneering 7.5MW solar PV plant has increased Burundi's generation capacity by over 10% and is the country's first substantial energy generation project to go online in over three decades, supplying clean power to tens of ...

Multinational effort brings first solar farm to Burundi

Green energy developer Gigawatt Global has led an international effort in a six-year process to

build Burundi's first solar farm, consisting of a 7.5 MW solar PV plant located near the village of Mubuga.

Burundi

Specifically for Burundi, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators. It is a part of "Global Photovoltaic Power Potential" Study, which

Burundi's solar capacity to double, announces President

...

7.5 MW field result of multinational effort already provides more than 10% of nation's electric generation capacity; more to be developed Gitega/Mubuga, Burundi - 9 May 2023: President Ndayishimiye of Burundi today visited Gigawatt Global's solar power plant in Mubuga, Burundi, near the capital Gitega, the nation's first utility-scale solar field. The high ...

Burundi's solar capacity to double

President Ndayishimiye of Burundi announced plans to double the country's solar capacity at a ribbon cutting ceremony at the first solar field,

which was financed by REPP. The 7.5MW field in Mubuga was the result of a multinational effort and has been providing more than 10% of nation's electric generation capacity since it was commissioned in 2021.
