# Ranking of Japanese soft photovoltaic panel manufacturers

## Overview

---

The Latest Ranking of Top PV Module Brands in Japan has Been Released, and JinkoSolar has retained the Top Spot as No.1 Brand. Recently, PVeye media, an authoritative research agency in.

The Latest Ranking of Top PV Module Brands in Japan has Been Released, and JinkoSolar has retained the Top Spot as No.1 Brand. Recently, PVeye media, an authoritative research agency in.

This report lists the top Japan Solar Energy companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be the leaders in the Japan Solar Energy industry. Download Free PDF Now.

JA Solar grabbed the top spot in the rankings with a score of 82.9, followed by Trina Solar with 81.7, JinkoSolar with 80.8, Canadian Solar with 78.5, and Longi and Risen sharing the fifth position with 78.0.

These panels have efficiency ratings of around 22% and feature half-cut cells and heterojunction technology with gapless connections. The key for Panasonic and other Japanese solar companies will be justifying premium prices for their high quality solar modules. Companies in Japan are not alone in this fight.

The Solar Panel Manufacturer Scoring System analyzed hundreds of data points drawn from solar panel spec sheets, company financial statements, and state-level government statistics to score each solar panel brand. The ranking covers diverse factors, including each panel's overall value, module quality, warranty, and the manufacturer's . Which is the best PV module brand in Japan?

The Latest Ranking of Top PV Module Brands in Japan has Been Released, and JinkoSolar has retained the Top Spot as No.1 Brand. Recently, PVeye media, an authoritative research agency in Japan market, released the report on Japan's 2020 PV module shipments.

Why should you buy solar panels from Japanese manufacturers?

There are still good reasons to purchase panels from Japanese solar panel manufacturers, however. The main reason is that these companies are still making some of the best solar panels on the market. One of the main reasons they are so good at making solar panels is that they have been doing it for a long time.

Is Japan a good country to invest in solar panels?

Back in 2010 Japan was riding high in the solar industry as Japanese solar companies were the top solar panel producers in the world. Japan was expected to stay in the number one position for the foreseeable future as the country led the pack in innovation as well as panel quality.

Is Japan a good market for PV modules?

The Japanese market is the litmus test for every company when it comes to product quality and brand influence. If we can win Japan market being recognized as the No.1 modules supplier, we can win the world". Recently, PVeye media, an authoritative research agency in Japan market, released the report on Japan's 2020 PV module shipments.

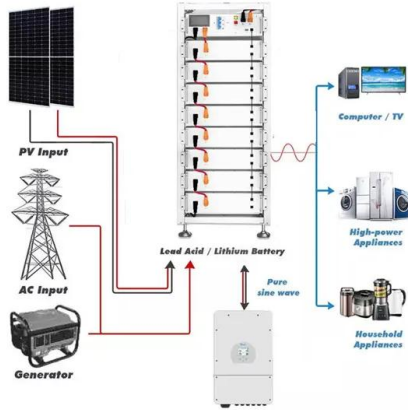

Can Japan compete with Chinese solar panels?

IMS Research has noted that the rise of low cost Chinese solar panels has taken away from Japan's market share in the PV industry. Though Japan may have trouble competing on cost with Chinese solar companies, it could have better luck in competing against more expensive high efficiency solar panels.

Are Japanese companies interested in solar manufacturing?

Japanese corporate giants with no previous experience in the solar industry have shown that they are willing to get involved in solar manufacturing. This provides an opportunity for these companies to put their efficient manufacturing processes to work expanding our capacity to create clean, renewable energy.
