Ranking of photovoltaic panel export companies

Overview

LONGi, Trina Solar, Jinko Solar, and JA Solar remain the top 4 manufacturers, shipping a total of around 170 GW globally, accounting for two-thirds of newly added installations.

LONGi, Trina Solar, Jinko Solar, and JA Solar remain the top 4 manufacturers, shipping a total of around 170 GW globally, accounting for two-thirds of newly added installations.

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Module Manufacturers was announced. The revenue of the top 10 module manufacturers exceeded 700 billion yuan and the shipments exceeded 400GW in 2023, almost double the total of the top 20 in 2022.

The top seven global solar panel manufacturers are mostly (though not exclusively) Chinese. Miles ahead of the pack is Tongwei Solar, exporting 38.1GWp in 2022, closely followed by JA Solar, AIKO, LONGi, JinkoSolar, Canadian Solar, and Trina Solar. Each manufacturer brings unique strengths to the industry table.

A total of 18 Chinese companies were selected in the top 20 list, with a total output of more than 270GW in 2022, gradually taking over the global PV module market with their unique advantages. LONGi, the king of the PV industry, supplied 46.76GW of modules in 2022, up 21% year-on-year.

TrendForce says in a new report that the top six module manufacturers in 2022 shipped around 205 GW to 211 GW of PV panels, accounting for 76% to 78% of 270 GW of module demand last year.
