Recom power Micronesia

Overview

What is RECOM Power?

RECOM Power is a manufacturer of AC/DC electronic power supplies and DC/DC converters with over 30.000 compact power supplies for use in a wide variety of applications. They specialize in AC/DC power supplies and DC/DC converters, switching regulators and LED drivers and provide worldwide customer service.

What's new at RECOM?

RECOM launches cost-effective, 22W IP65-sealed LED driver with long service life. Explore our new filter page where you can navigate through a vast collection of material. Our experts share their insights on technology and the power industry.

Are RECOM products counterfeit?

RECOM is represented by major full-service and specialist global distributors. Stock and samples of most products are readily available on request, along with application and technical product support. We cannot exclude the possibility that RECOM products purchased from other sources are counterfeits.

Power Solutions , RECOM

In 2019, RECOM acquired Italian power specialist "Power Control Systems Srl" (PCS). PCS was founded in 1980. It is located in a modern 4.500m² R&D and production facility in San Vendemiano, northern Italy. Focusing on quality and highly reliable products, PCS is an expert in the field of high-power supplies.

Authorised Distributors , RECOM

RECOM is represented by major full-service and specialist global distributors. Stock and samples of most products are readily available on request, along with application and technical product support. Distributors authorised by RECOM will be listed below:

RECOM Power RACPRO1 DIN-Rail Power Supplies

RECOM Power RACPRO1 DIN-Rail Power Supplies deliver 240W, 480W, or 960W for demanding industrial applications. These power supplies provide an outstanding lifetime of 80,000+ hours, high mains input surge immunity of up to 6kV AC, and high return voltage immunity of >35V at the output. The series also supports an extended temperature range of ...

Recom Introduces a New Series of 15 W AC-DC Power Supplies

3 ???· Recom introduces the RACM15E-K series, a cost-effective and versatile range of AC/DC power supplies designed to meet the diverse needs of modern industries. These power supplies support various connection and mounting configurations, making them adaptable to multiple applications. Key Features of RACM15E-K Series: Versatile Mounting Options:

...

REC3-R Series

A non-isolated or switching regulator converter can efficiently reduce or boost a DC input voltage

to a lower or higher output voltage. A switching regulator has the following advantages over an isolated DC/DC converter: 1. As a transformer is not used and the input and output share a common ground, the efficiencies can be very high (>97%).

Support Area for the United States

From this centralized office, the RECOM Power, Inc. team provides sales and technical support services for all North and South American markets. We serve large original equipment manufacturers (OEMs) and smaller, lower volume users through our network of sales representative firms and distributors in the Americas.
