Refu storage systems Costa Rica

Overview

How to find a mini-storage unit in Costa Rica?

The most important thing to know about trying to find a mini-storage or self-storage unit in Costa Rica is that they are called “ mini-bodegas “. Google translate will tell you that means “small winery” but don’t let that confuse you. Searching online for “self-storage in Costa Rica” you won’t find many so try “bodega” instead.

Why should you choose refustor energy storage systems?

“REFUstor’s energy storage systems will complement and enhance our current hybrid energy storage product offerings and will further accelerate our development of new technologies as we continue to provide our commercial and industrial consumers with leading solutions for their adoption of renewable energy.

Where is refu made?

At its location in Pfullingen at the foot of the Swabian Alb, the company develops, sells and services innovative components for the solar and battery storage market at the highest technical level. Production takes place in Pfullingen and at the REFU factory in Hungary.

Why do you need a refu inverter?

Go Solar. REFU Inverts have proven itself in more than 300.000 installation – every day. The combination of a PV or a Battery-Storage installation and a REFU Inverter will allow you to cover your energy requirement with self-produced and clean energy. Since your energy is being generated by yourself, you are more independent than before.

Where are refu inverters made?

Production takes place in Pfullingen and at the REFU factory in Hungary. Here, the company can draw on the extensive experience of the team, which has

sold over 400,000 inverters to date. REFU Elektronik GmbH is part of the internationally operating PRETTL group of companies.

Who is refu Elektronik GmbH?

About REFU Elektronik GmbH REFU Elektronik GmbH was founded in 1965 and since then has set new standards in the fields of power supply, energy storage and converter technology, thus establishing a very good market presence in converters for renewable energy applications.
