Renua energy Bahrain

Renua Energy was awarded its first state contract

Renua Energy was founded by David Byrne to provide professional photovoltaic project development services ranging from feasibility and start-up through to full design & engineering capabilities. In 2021, Renua added a full line of electric vehicle charging station capabilities ranging from host site evaluation through to installation and station commissioning.

Spotlight Video

Renua Energy was founded by David Byrne to provide professional photovoltaic project development services ranging from feasibility and start-up through to full design & engineering capabilities. In 2021, Renua added a full line of electric vehicle charging station capabilities ranging from host site evaluation through to installation and station commissioning.

Renua Energy at Work on State Of Charge Podcast in Vermont

Renua Energy worked with Qmerit and Kia Motors to install a brand new ConnectDER at a home in Starksboro, VT as featured in the State of Charge Podcast with Tom Moloughney. ConnectDER is a meter socket adapter (MSA) for 100A and 125A services that allows the connection of either solar or an EV Charger. This can help avoid costly service ...

Renua Energy & Galehead Development

Renua Energy was founded by David Byrne to provide professional photovoltaic project development services ranging from feasibility and start-up through to full design & engineering capabilities. In 2021, Renua ...

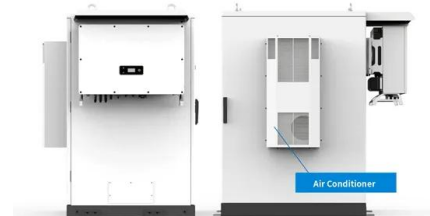

Renua Energy

Renua Energy was founded with a simple mission: to empower commercial and utility solar project developers to deploy their projects more efficiently. We provide customized, customer-centric and timely solar, energy storage, and energy efficiency design, engineering, and development solutions.

Renua Energy

Renua Energy was founded by David Byrne to provide professional photovoltaic project development services ranging from feasibility and start-up through to full design & engineering capabilities. In 2021, Renua added a full line of electric vehicle charging station capabilities ranging from host site evaluation through to installation and station commissioning.

Summary of Renua Energy's EV Services & Portfolio

Renua Energy was founded by David Byrne to provide professional photovoltaic project development services ranging from feasibility and start-up through to full design & engineering capabilities. In 2021, Renua added a full line of electric vehicle charging station capabilities ranging from host site evaluation through to

installation and station commissioning.

Work in Progress

Renua Energy was founded by David Byrne to provide professional photovoltaic project development services ranging from feasibility and start-up through to full design & engineering capabilities. In 2021, Renua added a full line of electric vehicle charging station capabilities ranging from host site evaluation through to installation and station commissioning.

Renua Energy Receives EVITP Certification

Renua Energy was founded by David Byrne to provide professional photovoltaic project development services ranging from feasibility and start-up through to full design & engineering capabilities. In 2021, Renua added a full line of electric vehicle charging station capabilities ranging from host site evaluation through to installation and station commissioning.

Renua Energy

Renua Energy was established in 2013 to bring customized commercial & utility solar engineering, permitting, and project development solutions to the marketplace. We are unique simply because our services are comprehensive and we have successfully

designed and permitted over 30 community solar projects across New York State.

Projects

Renua's projects fall into two general categories: solar project development services & electric vehicle service equipment. Solar Projects Completed Projects Key: preliminary layout (L), energy modeling (M), site planning and environmental permitting (P), detailed electrical (E) and civil (C) design, and construction support (S).
