

Roof ridge photovoltaic bracket installation

Overview

How do I install a flat roof solar array?

Complete row-to-row bonding in the array. Connect arrays to equipment ground. Complete wire management with weatherproof ties. Manage wires underneath module and Chassis flange. Create mounting platform for inverters. Add anchors to the ballasted system. IronRidge BX delivers superior power density and design flexibility to flat roof solar arrays.

Can ironridge install a shingle roof?

If you run into this, contact IronRidge for additional engineering support. The IronRidge Flush Mount System is an all-in-one mounting solution for residential and commercial pitched roofs – including composition shingle, tile, and metal roofs.

What is the ironridge roof mount?

The IronRidge Roof Mount provides an all-in-one mounting solution, with the roof attachment FlashFoot, XR rails, and integrated grounding. IronRidge products are engineered to last in the most extreme weather conditions and have been installed in every continent in the world.

Does ironridge ballasted roof mount work?

The IronRidge Ballasted Roof Mount components are engineered and certified to work with best-in-class 3rd party components and roof connecting solutions including Ecofasten, Wiley/Burndy and Oldcastle. IronRidge products are engineered to last in the most extreme weather conditions and have been installed in every continent in the world.

Does ironridge offer a flush mount system?

IronRidge offers two “full stack” flush mount systems for pitched roof applications: the Aire System and XR System. Each includes clamps, rails, and an array of attachments that will enable installers to securely mount arrays on

composition shingle, tile, slate, and shaker shingle roofs.

Can a rated PV system be installed on a Class A roof?

Class A rated PV systems can be installed on Class A, B, and C roofs without impacting the roof's fire rating. First, identify where you want to install PV and the specific conditions associated with this site. These conditions impact the usable space, attachment choice, and layout of your system.
