# Rooftop installation of solar photovoltaic panels

## Overview

---

Before you begin the installation process, properly plan your solar panel system. This involves assessing your roof's suitability, determining the number of panels you need, and obtaining the necessary permits.

The first step in the physical installation process is securing the roof attachments supporting the solar panels. First, the installer will find the rafters beneath your roof shingles. They'll either use a stud finder or measure from the.

With the stanchions in place, the next step is installing the racking to support the solar panels. Trethewey and Warda use aluminum rails for their.

With the mounting system and electrical components in place, Trethewey and Warda install the solar panels. Each panel is bulky and heavy, so.

Before the panels can go on, their electrical conduit and wiring must be in place. A licensed electrician is often the one doing this work. First, Warda runs conduit from the roof to the home's main electrical panel according.

### How to install a Rooftop Solar Mounting system?

Measure and plan the system Before installing the solar mounting system, you need to measure the roof surface, check the load-bearing capacity, and plan the layout of the system. Purchase equipment . Prepare roof . Install mounting hardware . Secure panels . Connect electrical components . Test and register the system . Get necessary permits and inspection .

### How to install a Rooftop Solar Mounting system?

Measure and plan the system Before installing the solar mounting system, you need to measure the roof surface, check the load-bearing capacity, and plan the layout of the system. Purchase equipment . Prepare roof . Install mounting hardware . Secure panels . Connect electrical components .

A Detailed Guide on Installing the Solar Panels  
Step 1: Marking Roof Rafters As simple as it may seem, marking roof rafters is an essential step. Step 2: Install Roof Attachments This step is where things start looking up (literally). Step 3:

Install Racking Rails . Step 4: Getting Panels On Your Roof . Step 5: Mounting Panels .
