Scam of leasing rooftops to install photovoltaic panels

Overview

Door-to-door sales are innately pushy, and an aggressive salesperson is always a bad sign in business. Door-to-door salespeople are usually trying to make a quick buck and may rush along your decision-making process by making elaborate promises. In the world of solar panels, this may look like a person pressuring you.

Whether it's door-to-door or online, a forceful salesperson might inform you that a certain deal, like a financing rate or an incentive program, will.

There is plenty of diversity in the world of solar panels, with ample brands to choose from based on your needs, your price range and the architecture.

We've all been sent scammy emails and they'll slip through because it looks much more official than it is. Steer clear of any emails, social media posts or pop-ups that boast unlikely amenities and freebies. These might include free.

Many solar panel companies will claim to potential customers that the federal solar tax credit will soon be eradicated. As a matter of fact, the federal solar tax credit currently sits at 30% and.

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading claim.

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading claim.

In this type of scam, fraudsters lure homeowners by offering "free" solar panels, claiming that government programs or grants will cover the entire cost of installation.

How the scam works: People posing as solar installers or utility employees call or come to your home and offer free solar panels through made-up government programs or incentives.
