Where is the Sangomar oil field in Senegal?

Further south near Dakar, the Sangomar oil field is being developed by Woodside. The Government of Senegal approved a new Petroleum Code in 2019, updating Senegal's oil and gas legal framework. The gist of the law reflects the spirit of the new constitution, which stipulates that the country's natural resources belong to its people.

Will Senegal conduct an oil & gas audit?

DAKAR - Senegal's newly elected President Bassirou Diomaye Faye on Wednesday said his government would conduct an audit of the West African nation's oil, gas and mining sectors. Read more at [straitstimes.com](https://www.straitstimes.com).

How has power Africa aided the Senegalese gas sector?

Power Africa has also successfully provided technical assistance and capacity building to aid the nascent Senegalese gas sector. Senegal has a dozen offshore blocks that are currently open, including new ultra-deep offshore blocks. Several blocks remain open and the Government of Senegal remains open to queries from interested developers.

Is Senegal a good place for oil exploration?

A succession of discoveries off the Senegalese coastline since 2014 has made the country attractive to oil exploration companies. BP and U.S.-based company Kosmos are in partnership to develop two fields: the Grand Tortue (GTA) and the Yakaar Teranga hub. The GTA gas field straddles Senegal and Mauritania.

Did Elton oil get a LNG concession in Senegal?

In March, the oil distributor Elton Oil was awarded the concession for an LNG storage and distribution facility in Senegal, but the exact details of the arrangement remain unclear.

How much does it cost to build a gas pipeline in Senegal?

Senegal's convertible production capacity is estimated between 400 MW and 500 MW. Gas pipelines: With a total length of about 472 kilometers, the cost of constructing the network is estimated at around \$300 million and will be carried out in several successive phases.

### Sénégal -- Wikipédia

Le Sénégal, en forme longue la république du Sénégal, est un État d'Afrique de l'Ouest bordé à l'ouest par l'Océan Atlantique. Les pays qui lui sont frontaliers sont la Mauritanie au nord, le Mali à l'est, la Guinée au sud-est, la Guinée-Bissau au sud-ouest, et enfin la Gambie, qui est presque entièrement enclavée au sein du territoire sénégalais dans l'embouchure du fleuve Gambie.

### Oil, Gas and the Transition to

## Renewables 2024

Senegal finds itself in the midst of oil and gas development, while also taking into account the energy transition. Energy transition means moving from a system dominated by the use of fossil fuels to an energy mix based mainly on renewable energies. Oil and gas assets help to finance renewable energies.
