

European Solar and Energy Storage Solutions

Sfe solar Eritrea

Overview

Where is Eritrea's first solar plant?

The government of Eritrea has received a \$49.92 million grant from the African Development Bank to fund a 30 MW photovoltaic plant in the town of Dekemhare, 40 km southeast of the capital Asmara. It will be the country's first large-scale solar plant.

Does Eritrea have a solar farm?

Eritrea is lagging far behind in the electrification of its territory and is now turning to renewable energy. The government has launched the country's first solar farm, a 30-MW facility 30 km from the capital, Asmara.

Why should Eritrea invest in a solar plant?

This initiative aims to address the energy needs of Eritrea while promoting sustainability and reducing carbon emissions. The solar plant is anticipated to contribute to the nation's energy independence and support its commitment to renewable energy development.

What is the African Development Fund (ADF) doing in Eritrea?

The African Development Fund (ADF) is helping Eritrea's government to develop a 30 MW solar plant in Dekemhare, in the central part of the African country. The ADF is currently seeking consultants for the project through a tender. The project will include an unspecified amount of battery storage and a 66 kV transmission line.

How much PV capacity does Eritrea have in 2021?

According to the International Renewable Energy Agency (IRENA), Eritrea had just 24 MW of installed PV capacity at the end of 2021. This content is protected by copyright and may not be reused. If you want to cooperate with us and would like to reuse some of our content, please contact: editors@pv-magazine.com.

What is Eritrea's national energy policy?

Prospective consultants have until Feb. 23 to submit their proposals. The Eritrea National Energy Policy, which was issued in 2018, aims to increase the electrification rate across the country. According to the International Renewable Energy Agency (IRENA), Eritrea had just 24 MW of installed PV capacity at the end of 2021.
