Slovenija: HSE to deploy

590MW PHES and 150MW BESS by 2035

State-owned utility and power generator HSE is targeting 800MW of flexibility assets across Slovenia by 2035, including pumped hydro energy storage (PHES) and battery energy storage systems (BESS). HSE, or Holding Slovenske Elektrarne, aims to have 175MW of flexibility resources online by 2030 before nearly quadrupling that number by 2035.

Bess Freedman Sees 'Monumental' Comeback in NYC Real Estate

The New York City real estate market is "back with a ferocity and intensity that I have never seen," Brown Harris Stevens CEO Bess Freedman says. She speaks with Bloomberg's Kailey Leinz and Jon

NGEN deploying largest BESS in Slovenia, Austria and Croatia, ...

The Slovenia project builds on three it already has operational there, totalling 20MWh, 30MWh and 40MWh, the first of which was built in 2019. These projects mainly provide secondary reserve ancillary services and cover 50-80% of the country's need there, Bernard told Energy-Storage.news.

Slovenia state-aid for BESS, renewables gets EU green ...

Slovenia plans to provide individual grants of up to EUR25 million per beneficiary to encourage investment in ramping up clean energy projects.

The aid package was approved under the EU's state aid temporary crisis and ...

HSE Aims for 800MW Flexibility with PHES, BESS in Slovenia

Holding Slovenske Elektrarne (HSE) plans to achieve 800MW of flexibility assets in Slovenia by 2035, including 590MW of Pumped Hydro Energy Storage (PHES) and 150MW of Battery Energy Storage Systems (BESS). The target includes 50MW of electrolysis and 10MW for active consumption. By 2035, HSE also aims to add 1,400MW of Solar and 70MW of wind

Slovenia's HSE to deploy 590MW PHES and 150MW BESS by 2035

State-owned utility and power generator HSE is targeting 800MW of flexibility assets across Slovenia by 2035, including pumped hydro energy storage (PHES) and battery energy storage systems (BESS). #

BNEF Energy Storage Tier 1 List 4Q 2024 , BloombergNEF

BloombergNEF has developed a tiering system for battery cell makers and system integrators. Based on bankability as evidenced by deployment, the system is designed to create a

transparent differentiation between the ...

Engie inaugura en Chile parque de baterías de

Las características del parque. Según informó ENGIE Chile, este nuevo parque de baterías tiene una capacidad de almacenamiento de 638 MWh, con 139 MW de capacidad instalada. Su tecnología es en base a Battery Energy Storage System (BESS) y utiliza baterías de litio para almacenar la energía renovable generada por el Parque Fotovoltaico PV Coya (180 MWac), ...

Slovenia state-aid for BESS, renewables gets EU green light

Slovenia plans to provide individual grants of up to EUR25 million per beneficiary to encourage investment in ramping up clean energy projects. The aid package was approved under the EU's state aid temporary crisis and transition framework, designed to incentivize the production of equipment for the transition towards a net-zero economy.

NGEN Deploying Largest BESS in Slovenia, Austria and Croatia, ...

Developer NGEN is deploying the largest battery

energy storage systems (BESS) in Slovenia, Austria and Croatia, and wants to take its model beyond CEE too, CEO and co-founder Roman Bernard said.
