Solar Aluminum Bracket Catalog

Overview

What is an accessory frame bracket?

The Accessory Frame Bracket offers fast, on the ground installation for mounting module level electronics directly to the module frame. It works with rail-based racking systems, ballasted, and ground-mounted systems. Formed membrane covers are matched to major roofing brands to ensure a tested, engineered system for TPO, PVC, and KEE roofs.

What materials are used for mounting base brackets?

Mounting base brackets are fabricated from Series 6000 structural marine grade aluminum. 5/16" hardware included. "L" Feet are fabricated from high-strength 3/16" aluminum and include a vertical slot for adjusting to irregular surfaces. 5/16" coated hardware included. "L" Feet are fabricated from high-strength 3/16" aluminum.

What is a solar module clamp?

Module Clamps are Type 304 stainless steel for higher yield strength and durability. Pre-assembled module clamps feature no loose parts and a spacer that keeps free standing clamps in place for a quicker module installation. Patented. Note: Replace xxx with module depth from the Solar Module Specification Sheet.

What is a S-5 bracket?

Brackets S-5! brackets are designed for mounting on exposed-fix (face-attached or thru-fastened) metal roofs. Bolt Balance of System components directly to the appropriate bracket without additional interface hardware. provides a dependable and corrosive-resistant attachment solution.

What is a S-5 clamp & bracket?

Clamps Designed for standing seam and concealed-fix metal roof profiles, S-5! clamps can be used to mount ancillary components directly to the roof seams,

without the need for any additional interfacing hardware. S-5! Brackets S-5! brackets are designed for mounting on exposed-fix (face-attached or thru-fastened) metal roofs.

Solar Aluminum Bracket Catalog

Brackets for Fixing Photovoltaic and Solar Panels on Tiles.

Fastening Systems for Solar Panels on Tiles. Our photovoltaic panel fastening kits for tiles come with all necessary components for installation: steel or aluminum brackets, stainless steel ...

Unirac: World-Class Solar Mounting Products and Services

Solar PV Racking and Mounting Systems o SunModo

we're the leading solar racking provider! SunModo is energized every day by a desire to make solar installation easier, more reliable and more affordable. Our team is constantly engineering innovative racking solutions that help you ...

Aluminum for Solar Energy

Extruded aluminum profiles are usually used for solar panel frames and solar mounting system, because aluminum extrusions have high strength, light weight and strong corrosion resistance. The aluminum frame seals and secures the ...

Unirac continues to transform the way you install solar from array design and logistics, to installation, training support, and services. What's New? Better Solar Starts Here with Unirac. ...

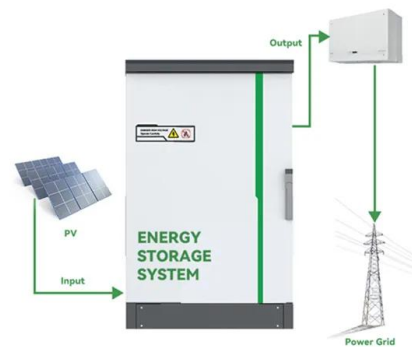

BougeRV 16 Units Solar Panel Mounting Bracket Kits, Solar Panel

About this item . SOLAR PANEL MOUNTING Z BRACKETS KITS are suitable for installing 50W to 1200W solar panels (about 6-7 PCS solar panels). UNIQUE DESIGN: A bent design with a ...

China Solar Mounting System, Solar PV Mounting Systems ...

As a key innovator in the building materials industry, Art Sign's zinc-aluminum-magnesium C steel has excellent self-healing capabilities and can greatly extend the service life of photovoltaic ...

MageMount Rail-less Solar Mounting System Product Catalog ...

MageMount Rail-less Solar Mounting System Product Catalog Material: Aluminum alloy 6063-T5 or 6061-T6, aluminum 3003-H14, and 304 stainless steel Finish: Clear and black anodized or ...
