# Solar Photovoltaic Panel Purchase

## Overview

---

How do I buy solar panels?

How you choose to buy solar panels depends on your financial situation and your savings goals. Paying cash is the simplest way to buy solar panels and offers the greatest return on investment. Cash purchases are typically made in 3-4 installments. For example:.

Should you buy a home with solar panels?

Design a custom solar system and compare quotes online. The back way into buying solar panels is buying a house that already has solar panels installed. According to Zillow, homes with solar panels – and other energy efficient features – sell faster and for more money than comparable homes without.

How much does a solar panel installation cost?

The best way to evaluate the price of a solar panel installation is in dollars per watt (\$/W). Similar to comparing dollars per square foot when shopping for a home, \$/W helps standardize the cost of solar by showing the cost of solar on a per watt basis. Currently, the average price of a solar panel system install in the U.S. is \$2.91/W.

Can you buy solar panels with cash?

Let's face it, not everybody has \$20,000 to \$30,000 in cash laying around – but that doesn't mean you can't buy solar panels. Solar loans offer a steady monthly payment that can front-load your solar savings.

Should you buy solar panels from a local installer?

By easily comparing quotes from local installers, homeowners have access to a tremendous variety of solar panels, inverters, and batteries. While it is possible for homeowners to buy solar panels themselves, either used or directly from the manufacturer, there are a few reasons buy them through an installer.

Are solar panels a good investment?

Solar panels can power your home entirely or supplement what you receive from your regional power grid. While purchasing solar panels requires an upfront investment, they can save you money in the long run and tap into a renewable power source that has little to no impact on the environment.
