Solar Support Bidding Information Template

Overview

What is a solar RFP?

But first a few key definitions: A Request for Proposal (RFP) is a formal bid document to ask vendors to provide proposals for desired projects, as required by many public agencies (federal, state, local). A solar RFP outlines the photovoltaic (PV) product or service requirements, the contract terms, and bidding process.

What is a solar PV proposal form?

This form is provided in Microsoft Excel format so Respondents can insert each solar vendor's values in a standardized worksheet that can be compared directly to the other proposals. The form includes both expected annual performance (electricity output in kWh) and costs over a 20-year solar PV project lifespan.

What is included in a solar project agreement?

The contemplated Agreement would include overall terms and conditions to enable and encourage rapid pursuit of all viable solar projects by the selected Respondent, along with performance criteria and management expectations.

2.2. Required Site(s).

How do I send a solar RFP response email?

The subject line of the email should be: "HOME Solar RFP Response." It is required that attachments with file sizes exceeding 8MB be compressed (i.e., zipped) and/or divided into multiple PDFs and e-mails with individual files labeled Volume I, Volume II, etc. to ensure message delivery.

What should be included in a PV system monitoring proposal?

Monitoring shall include revenue-grade metering of PV system production and building consumption, pyranometer, and ambient air temperature sensor. Proposals must include Internet hosting of monitoring with on-line access for

Buyer personnel and touchscreen kiosk or video monitor for public display of data.

What is home looking for in a solar PV project?

HOME is seeking a strong and experienced partner for developing and/or constructing solar PV projects at four sites initially. The focus for project development is designing, engineering, permitting, financing, installing, and operating on-site solar PV systems to reduce HOME's operating costs while increasing the use of renewable energy.
