IP54/55

OUTDOOR ENERGY STORAGE CABINET

OUTDOOR BATTERY CABINET

Overview

What is a solar sticker & how does it work?

The sticker is a polymer film embossed with microstructures that bend incoming sunlight. The result is that the active materials in the panels absorb more light and convert more of it into electricity.

Are custom solar labels available?

Custom solar labels and special orders are available on request. All our solar labels are manufactured from premium grade outdoor vinyl with outdoor rated polyester film laminate and or engineering grade reflective 7 year glass bead polyurethane - MADE IN THE USA.

Where are solar labels made?

All our solar labels are manufactured from premium grade outdoor vinyl with outdoor rated polyester film laminate and or engineering grade reflective 7 year glass bead polyurethane - MADE IN THE USA. Premium Photovoltaic Solar Labels at the Best Prices Online.

Are solar labels UV laminated?

We carry an extensive collection of Premium Photovoltaic Solar Labels at the Best Prices Online. All our solar labels are UV laminated and printed on the highest quality materials for outdoor durability and sustainability. SolarCompliantLabels.com goes to great lengths with our products to ensure your solar install clears compliance.

What are solar compliant signs made of?

Our solar compliant signs are made with outdoor rated .040" aluminum. They are coated with a baked white enamel paint and then printed with ink that is UV cured for long lasting color. 3M permanent adhesive tape is on the back for easy installation. All our signs are made in the USA.

Is a solar label ANSI compliant?

OK for exposure to: Direct Sunlight, Rain, Snow, Ice, Fog and Salt Air. Multiple Font Sizes available to meet your local requirements. Consider making your installation even simpler with our NEC Label Packs. All of our labels are NEC and ANSI compliant. Designed to meet solar system labeling requirements.
