

European Solar and Energy Storage Solutions

Solar investment group Qatar

Overview

Why should Qatar invest in a solar power plant?

The power plant can supply 10% of the country's peak energy consumption and help to avoid 26 million tonnes of carbon emissions over its operational life. It also reduces the reliance on gas for power generation, diversifying Qatar's power sources. Total and Marubeni won the solar project through a competitive tender process.

What is Qatar doing with solar power?

In 2022 Qatar's first solar power project came online, supplying the country with 7.5% of its electricity needs, with two more solar projects scheduled for completion in 2025. These will bring Qatar closer to its target of 20% renewable energy by 2030 and form the foundation of its national sustainability initiative.

What is Qatari Investors Group (qig)?

Qatari Investors Group (QIG) is a diversified conglomerate listed on the Qatar Stock Exchange. The group owns and operates several subsidiaries in diverse sectors. Historically, the group's focus has been on B2B operations. QIG's subsidiaries are a mix of organically grown enterprises and international partnerships.

How much solar energy will Qatar have by 2024?

If these solar energy projects come online as expected, about 13% of Qatar's electricity generation capacity will come from solar energy by the end of 2024, with solar capacity totalling 1780 MW out of a total generating capacity of 12 GW.

Who owns Qatar power plant?

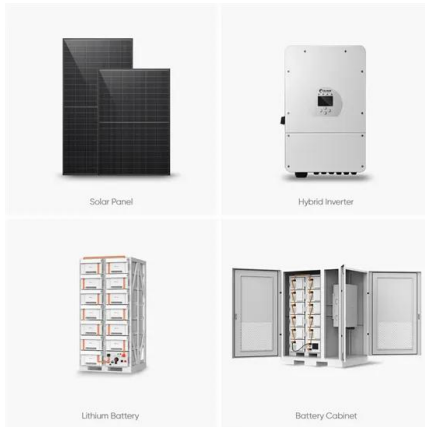

It is owned by Siraj Energy, Marubeni and Total. It is under the build, own, operate and transfer (BOOT) model for a period of 25 years. The licence to

own and operate the project will expire after the 25-year term and the power plant's ownership will be transferred to Qatar General Electricity & Water Corporation Kahramaa.

Who is the largest solar power producer in Jordan?

Shams Ma'an is the largest Solar Photovoltaic independent power producers ("IPP") in Jordan. IPP4 is the fourth independent power producers ("IPP") in Jordan. Amman East IPP is the first independent power producer ("IPP") in Jordan. AM Solar is a 40 MW solar plant under construction and Commercial Operation Date is targeted 2nd quarter of 2019.
