15KW Solar System Installation in Burkina Faso Village

This solar system includes 15KW solar inverter, solar controller, PV combiner box and solar panels, which can meet Archer's basic electricity needs in village families. Our system can not only make full use of solar energy and store excess electricity during the day, but also provide stable power supply at night or when the power grid is out of

Solar PV adoption in rural Burkina Faso

While more than 90% of rural households use fuelwood and kerosene as a source of energy in Sub-Saharan Africa, this study examines the determinants of energy diversity through solar PV adoption by rural household. Employing primary data on 105 villages from Burkina Faso, a sample of 6300 households is investigated.
