# Solar panel installation connection Jersey

## Overview

---

Who installed the largest commercial solar installation in Jersey?

SunWorks was contracted by Jersey Electricity to install the Channel Islands' largest solar installation at Jersey Dairy, a total of 1,516 Solar panels. This saw the start of JE's lease scheme for commercial building owners and enabled SunWorks to deliver a world-class commercial solar installation in Jersey.

How many solar panels are installed in the Channel Islands?

This year, 1,516 solar panels were installed in the Channel Islands, making it the largest installation. SunWorks was contracted by Jersey Electricity to install these panels.

Why did Mark & Ian start a solar business in Jersey?

Mark and Ian had to start pushing for a higher volume of installations for the survival of their solar business in Jersey due to its slow uptake. This marked a journey towards focusing on the business side and 'hitting the numbers'. Kevin Keen was appointed as the first Non-Executive Director with sales targets set and accountability held.

How can Sunworks make a more diverse energy future for Jersey?

Sunworks is striving to make a more diverse energy future for Jersey by providing the best advice, service, and solar technology. We look forward to a time when Jersey can say it makes the best use of its resources and is an example to other offshore jurisdictions. Sunworks' efforts towards this goal are integral to modern homes being connected and integrated.

How many solar panels did Sunworks install?

SunWorks installed 60 solar panels in their first commercial job.

Why should you choose SunWorks Solar panels?

SunWorks Solar panels are a great choice for several reasons. As utility energy prices rise, the savings from using SunWorks Solar panels become even more significant. They offer a select range of specialist solar products suitable for almost any roof type. Their solar panels come from reputable brands with robust warranties that extend up to 25 years.

## Solar panel installation connection Jersey

---

### Residential Solar

Turn your home into an energy saving asset with Solar PV Technology. Solar Photovoltaic (PV) provides extra on-site electricity, ensuring your regular connection to the power grid. Daylight powers your panels, offsetting grid electricity purchases, saving you money.

### Solar PV

Solar photovoltaic (PV) systems are made up of panels that fit on top of your roof, but you can also install them on the ground or fit solar tiles. Solar PV cells are made from layers of semi-conducting material, usually silicon. When sunlight shines on the panels or tiles, electrons create a flow of electricity.
