

European Solar and Energy Storage Solutions

Solar panel power generation program

Scooter battery

The battery is installed in the pedal

Built-in battery in car beam

The battery is installed in the car beam

Pack the battery in the box

This the battery installation box, replace the battery cells without changing the shell

Ebike battery

Overview

What is the Solar for all program?

The Solar for All program also advances President Biden's Justice40 Initiative, which set the goal that 40% of the overall benefits of certain federal climate, clean energy, affordable and sustainable housing, and other investments flow to disadvantaged communities that are marginalized by underinvestment and overburdened by pollution.

Can PG&E help you install and manage your solar energy system?

Let PG&E help you install and manage your solar energy system. Why?

You can reduce your monthly bill and your carbon footprint. PG&E offers a range of incentives to help you adopt clean energy systems.

Why should you choose PG&E Solar water heating?

Solar water heating reduces the amount of energy needed to heat your water. Manage energy costs. Keep the power on during outages. Harness the full benefit of your solar energy investment. PG&E solar provides clean energy and battery storage for your home and business.

Why should you use solar energy to power your home?

Generating energy from the sun is free—using it to power your home can help protect you from rising energy costs. Generate, use, store and charge—all with one fully integrated clean energy ecosystem by Tesla. All of our products work together seamlessly, optimizing your energy usage and savings while minimizing your impact on the environment.

How will EPA's 60 solar for all program help low-income households?

EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy. This \$7 billion investment will generate

over \$350 million in annual savings on electric bills for overburdened households.

What is the 60 solar for all program?

This is a win for the environment, a win for consumers, and a win for the economy.” EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy.
